**We Are Doing
BUSINESS AS USUAL
during the
Remodeling of Our Store**

You are invited to stop in to see us every time you are in town, even though the carpenters are busy remodeling the front of the store.

Lerman Bros. Department Store has served Murray and Calloway County during the past 10 years. To keep step with the times, it was decided recently to remodel and enlarge the store to make it the finest of its kind in the county—one of the best in Western Kentucky, in fact.

Remodeling will be done as materials are available. At present only materials for the front can be obtained and work is now being done there.

Within a few months the interior will be completely remodeled and redecorated and furnished with new fixtures, and the store will be extended to include the basement.

We repeat, while remodeling is going on, we will carry on business as usual and invite you to come in.

Diversified Farming
For
Calloway County

Farmers May Buy New Automobiles

Farmers, if they have no other means of transportation, defense workers, taxi operators, and essential traveling salesmen will be eligible to buy new automobiles under rationing regulations announced today.

Aside from these groups, the eligible list follows in general that for rationing of new tires and includes physicians, visiting nurses, fire and police departments and others regarded as essential to protection of safety and health.

No one will be permitted to buy a new automobile, however, unless the local rationing board is satisfied that the applicant's present car is not adequate for the duties he performs.

Rationing is effective March 2 and will govern the sale of the 340,000 new automobiles made available for distribution this year.

The Office of Price Administration directed that local rationing boards require an applicant to prove his need for a new car in the light of conditions peculiar to his community, and officials predicted that, with less than 10 percent of last year's automobile production, available for sale during the next 12 months, "many persons on the eligible list will not be able to get a new car."

A "seemingly lack of interest in executive circles in Washington" concerning funds for war-needed roads and an expected drop in highway tax revenue may force sharp curtailment of highway construction in Kentucky this year, the state society of highway contractors was warned last week at Louisville.

Scarcity of Tow Sacks For Grain Is Reported

This year only one twenty-fourth of the tow sacks will be available that were available in 1940, it is reported.

There won't be near enough to hold the grain harvested this season, it is said, and for this reason farmers are urged to take good care of the sacks they now have.

Fertilizer will soon be shipped in bulk instead of sacks, states the same report.

Dexter Baptists Plan To Build

The Dexter Baptist Church of this county is planning to build a new house of worship.

Different individuals and churches, in the past have said, "When Dexter gets ready to build, we want to help."

And perhaps others who never said that want to see a nice little meeting house in Dexter. So we are letting them know that we are now planning to build as soon as we may. Any freewill offering from any source will be gladly accepted.

Just send your offerings to Lee Ernstberger, Dexter, Ky. He is church treasurer. The Dexter Church now has 12 members, all poor people. Only two of them own their homes. But they are a generous group—they gave last year (1941) \$47.63 per head. The largest per capita gift by any of our churches in this State, I am told.

The opportunity at Dexter is growing day by day as the town is building, and so is the community.

Uncle Sam's "Dexter" has never done what she would have done if she had a house of worship. Give us an opportunity, and watch us grow. C. H. Wilson, pastor.

Two Farm Discussion Groups To Be Started

Two evening farm discussion groups will be started early in March, one at the Training School and the other at Pottertown, providing the farmers want them, according to Prof. W. H. Brooks of Murray State College.

The first meeting will be held at the Training School on Monday night, March 2, at 8 p. m., war time and the second at Pottertown on Tuesday night, March 3, at 8 p. m., war time.

If the farmers want it, a series of about ten such evening meetings will be held at the rate of two a week, Prof. Brooks stated.

In a letter which Prof. Brooks has sent to a number of farmers, he says: "You as a farmer have a valuable store of information, gained through your experience. Some other farmer in this community may have had different experiences. If you would both attend one of our evening schools we would probably all profit from it."

These discussion groups, or evening schools, are being sponsored by the agricultural department of the Training School.

THE ROUND-UP

Before this year is out every person in the United States will be employed at jobs planned by Uncle Sam, according to government plans. It is probable that at least 200 more Calloway county men will be in uniform before Christmas and the rest of the people will be told what to do and where to do it.

Up to last week-end Japan had lost 143 ships sunk and 81 damaged. Maybe Japan's losing the war, too. The Allies have lost only 21 sunk and 8 damaged in our war with Japan.

The city of Murray hopes to buy the Ky-Tenn. power plant and office here and contract with TVA for power and light. Such a move is possible with the enactment of the TVA enabling law by the General Assembly last week.

Income tax returns must be filed by March 16. Many farmers will be liable for filing income tax returns for the first time this year. Any single person who earned as much as \$14.43 a week for the 52 weeks of 1941, or any married couple who had total earnings of as much as \$28.86 a week during 1941 must file returns.

Mussel fishing will open in the Ohio, Cumberland and Tennessee rivers on March 1, if anyone is interested.

Saving of certain coloring matter in paints will cause next year's auto license plates to be black and white or red-or-brown. Yellow won't be used nor green for sure.

Last year 40,000 tons of tin was used to make tin cans. This year more glass will be used and many articles will be dried instead of canned. What is canned will be put into bigger cans.

There will be enough can lids and rubbers for ginning this summer for everybody, according to reports.

With our rubber source in the Far East in the hands of the Japs, where is rubber to come from? 1. Wild rubbery in South America. 2. From guayule, a plant that grows in the southwestern United States. 3. Artificial rubber made in our own rubber factories. But these three sources have to be developed quite a bit yet before rationing of tires will be stopped.

FEBRUARY 24, 1942 In Memory

In loving memory of my dear husband, Charlie Stubblefield, who departed this life February 24, 1941: One long, sad year gone by, but I miss you no less as the time passes on. Than I did on the day of your going. For absence can never close the door of my heart. And the lamp of my love is still glowing. Sadly missed by wife, Mrs. Pernecy Jones Stubblefield.

Calloway County Has Five 4-H Clubs With Membership of 110 Boys and Girls

There are five 4-H clubs in Calloway county with a total membership of 110. And most of these 110 boys and girls are planning a project in connection with the Food-for-Freedom program of the government this season.

Everyone that does have a project for raising food will be presented a V button showing that he is participating in the Food-for-Freedom program.

All clubs meet once a month, have officers, and discuss projects and better farming and home-making. Local leaders and Agricultural extension agents advise and guide the clubs.

There are four clubs composed of white boys and girls and one of colored boys and girls. The clubs and their officers are as follows:

Lynn Grove
President, Lauretta Jones; Vice-President, Marion Murdock; and Secretary, Barbara Nell Harris.

Kirksey
President, Mildred Dunn; Vice-President, Jack Norsworthy; and Secretary, Vanessa Ross.

Hazel
President, Eupal Erwin; Vice-President, Leta Grey Brandon; and Secretary, Myrtle Holland.

Stone
President, Leon Winchester; Vice-President, Billie Hargis; and Secretary, Jewell Evans.

Pine Bluff (Colored)
President, Iris Stubblefield; Vice-President, Bertine Stubblefield; and Secretary, Bertha Blass.

All the boys and girls of the Pine Bluff Club live on Uncle Rufe Stubblefield's farm at Pine Bluff.

The club was organized last spring and, according to County Agent John Cochran, did a fine job and are organized to do some good work again this year.

Some of the 4-H Club projects carried on last season by the members in this county include dairying, poultry, pigs, beef cattle, corn, tobacco, tomatoes, gardens, farm accounts, foods, canning, clothing, and room improvement.

Blood River Plans Series of Meetings

The district board of the Blood River Baptist Association has planned a series of monthly meetings to be held at the various churches in the association.

The first of these will be at Owens Chapel Church, northeast of Kirksey where L. R. Fieldson is pastor, on Thursday, March 5. The program subject for this meeting will be "Evangelism."

These meetings are to begin at 10 a. m. and close at 3 p. m. L. D. Wilson, moderator, will have charge of the program.

The program for the March 5 meeting will be as follows: Devotional, Vernon Billington; main message, "Baptist Activities in Kentucky," J. H. Thurman; Christian Education, L. T. Daniel; Hospitals, A. M. Johnson; Orphan Homes, Stephen H. Cobb; District Missions, J. C. Outland; State Missions in the Mountains, Sam P. Martin.

An opportunity will be given for open discussion on each of these subjects.

The Executive Board will meet at the noon hour.

It is the desire of the brethren that these meetings will be a monthly feature in order that we might present the work of the denomination before the churches, a church official said. Therefore the committee is open for an invitation to come to some church each month for the purpose of studying the work.

Members of the committee are L. G. Gatlin, J. C. Outland, and T. G. Shelton.

Murray, the friendly city.

The 4-H Club at Pine Bluff is composed of Negro boys and girls, all of whom live on Uncle Rufe Stubblefield's farm.

Dave Parks remains ill of rheumatism at his home in Gunter's Flat vicinity. Mr. Parks with members of his family have done much for several communities in singing.

To "Eagle" and his good wife we extend sympathy for their long illness but hope the spring weather may make his neuritis less painful.

Wes Hawks of Crossland who last year had a paralytic stroke remains unimproved.

Mrs. Hoyt Craig is improving from a tonsil operation at the Mason hospital last week.

Nat Gibbs who underwent an appendicitis operation at the clinic is reported as improving. Mr. Gibbs formerly lived in the Gunter's Flat vicinity. His mother, Mrs. Boy Gibbs is in Virginia. She has one son John Gibbs and family living there. Her health prevented her from coming to the bedside of her son here.

Cully Nesbitt who works in Virginia, returned Saturday after a visit with his family and other relatives.

Bro. Claud Wilson of Hazel who is in a service camp in Texas writes his parents, Mr. and Mrs. Sam Wilson, that he is doing fine.

Mrs. Rudy Miltstead and son and Miss Rubena Dunn of Detroit are visiting their parents and grandparents Mr. and Mrs. Asher Dunn of Crossland.

Forrest, the son of Mr. and Mrs. Asher Dunn, is stationed in Alaska.

Another son, Rubie Dunn, who is also a service man, is stationed at Los Angeles, Calif.

In February issue of "Christian Herald" (a non-denominational magazine) of which Daniel Polling, a Baptist preacher, is editor we noted that in the United States there are 7 million children in school age without religious training.

Yet in many instances parents do not take the interest in the religious training of their children, that many dog owners do in the training of their dogs for races. Kentucky is to be congratulated that laws have been made demanding of the teachers daily Bible reading in school. Yet many teachers have failed to comply. Parents, take your children to Sunday school or at least let them see you read your Bible often. It might be encouraged.

Mr. and Mrs. Sammy Paschall of Nashville were recent visitors with their parents Mr. and Mrs. Wayne Paschall and sister Mrs. Bee Starks, and Mr. Starks.

College to Be Host To 2-State Speaking Contest On March 9

Murray State College, with the International Relations Club sponsoring the event, will be host to the Western Kentucky and Tennessee division of the National Extension Discussion Contest on March 9, Prof. A. C. LaFollette, head of the speech department at Murray, announced yesterday.

The colleges that will compete include University of Louisville, Western Kentucky Teachers College, Middle Tennessee Teachers, Vanderbilt, Peabody College, Memphis State College, Union University, Southwestern University and others.

Tournaments are held in these speaking contests in district meetings, regional meets, and finally, one student from each region goes to Washington, D. C., to compete there. Each student who goes to Washington gets an expense-free tour of South America or a lump sum of that equivalent.

LABOR PICTURE CHANGED

Ten years ago when automobile factories in Michigan closed because of the depression hundreds of natives of Calloway and adjoining counties working there returned to homes and farms here to "help make a crop".

This influx of labor caused a further drop in prices of farm products because greater surpluses were thrown upon glutted markets.

This month the factories in Michigan closed during the period when they are being converted into war munitions and equipment plants, but little of the labor thus released is coming back to Calloway County.

The reason is that steps have been taken to provide them with 60 per cent of their weekly wages as unemployment compensation during the period of their idleness, and this at a time when their assistance in planting the 1942 crops would be invaluable to their families, relatives and the nation.

We will not attempt to discuss the wisdom of present labor policies, especially the matter of unemployment compensation, but we do wish it could be revised or abolished insofar as it applies to able-bodied workers in time of war when their services are so badly needed.

If they can't use them in Michigan while the automobile plants are being converted, they would certainly be a God-send to farmers who are so badly in need of labor. As most of them were raised on farms, helping with the spring planting would be a wholesome diversion for them and their assistance would give us quite a boost at this time.

FLOWERS THAT BLOOM IN THE SPRING

As far back as history records some folks doubt—along about the middle of February—that there will ever be a "break in the weather". Others know there will be because they see so many evidences of spring.

It is useless to speculate on which class get the most out of life, or which get most of life's tasks done, for those who note the buds on the trees, pay attention to the green shoots of grass under their feet and see birds venturing out in search of food, are the ones most apt to be prepared for the new season which is at hand.

All of which is a preface to the sordid and realistic appraisal of what has happened to the allied cause in World War II during the past two weeks, and what is certain to happen in the future.

Those of the present generation who are inclined to wonder whether spring is coming this year are the ones who, doubt our ability and will to win a decisive victory in spite of reverses of the past week, and those our leaders predict are coming in the future.

Those who see so many evidences of spring, and thoroughly intend to plant good seeds this year the same as ever, with the same promise of generous harvests, are the ones who know there is no such thing as defeat when a nation's cause is right.

We have had some bad news recently. So, what will we, as individuals, do about it?

Somewhat may be to blame for not telling us Japan packed such a big wallop, that the Japanese, as a people and as a nation, are thoroughness ruthless, deceitful and untrustworthy. Somebody may have lied when he said Singapore was impregnable. So what?

We have discovered the Japs do pack a powerful wallop, also that Singapore was not impregnable, just like a farmer discovers new crop pests every year. Like the farmer, we must cope with them to do any good.

It may be hard to see victory ahead when the enemy raps rough-shod over the eastern half of the world, but from an individual's standpoint it is no harder than visualizing "flowers that bloom in the spring" when all nature appears dead.

And the greatest hope for the future of civilization is that those who know spring is coming, and do what it takes to produce during the period allotted to them, outnumber the others.

VALLEY BRIDGE COMPANY

In 1927 the Valley Bridge Co., a corporation was organized by T. O. Turner and H. P. Atwood for the purpose of building bridges at Eggers's Ferry, at Canton, at Paducah, and Smithland. Bills were put through Congress by Congressman Voss Gregory permitting the location of these bridges, and a contract was made between the Valley Bridge Co. and Strachan, Harris & Otis of Toledo, O., who had financed other bridges in the area.

These bridges have been a great convenience to this section and to the tourist travel.

The Eggers's Ferry bridge is to be closed for reconstruction on account of the TVA lake and will be closed some 20 feet, taking only a few months, according to information from the TVA engineers.

A Week of The War

Secretary of War Stimson told his press conference this nation is confronted with a situation in which we cannot "stay our way out or produce our way out," and the only way left is to "fight our way out by intelligent offensive action." Every effort is being made to build powerful armed forces, he said, and when conditions warrant, they will "seize every opportunity" to strike at the enemy. In the meantime, the U. S. must be prepared to take sporadic attacks along its coasts, Mr. Stimson said, because "if we scatter our forces for the defensive, it is the surest way to defeat."

President Roosevelt told his press conference that under certain conditions enemy planes could bomb cities as far inland as Detroit or Chicago, he said. He said the new ships could shell New York City. Congress completed action on the \$100,000,000 appropriation for the Office of Civilian Defense, to provide fire-fighting equipment, gas masks, protective clothing and emergency medical supplies.

Assistant Secretary of State Berle, speaking in Des Moines, Iowa, said the U. S. is determined to fight an aggressive war, rather than a defensive one, and "the fruits of victory will be available to every free people throughout the world." Mr. Berle said "We can no longer think of ourselves as a supply base. . . . Our work is more than that of making guns and planes and tanks. Winning the war is now America's job." He said all signs point to big offensives this spring against the United States.

Foreign Relations

President Roosevelt announced a new loan to Russia is planned because the original Lend-Lease authorization of a billion dollars has been obligated for future deliveries. Commitments for making American war materials available to Russia were maintained up to schedule until December 31.

Delivery of supplies for the Soviet Union slowed down in December and January, he said, but will be brought up to schedule by March 1.

Under Secretary of State Welles said answers from the Vichy Government to this country in regard to French aid to Axis forces in North Africa were considered unsatisfactory. Mr. Welles said the French Ambassador had reported, however, no commitments have been made by the French to Japan in regard to Madagascar.

Production And Conversion

The War production Board announced war production of the Ford will be running at a rate of almost \$11 billion when they reach peak production on present orders. The companies will need \$60,000,000 to 1,000,000 workers as compared with a peacetime peak of 350,000. The Board said war expenditures authorized by Congress, including pending bills and Lend-Lease, totaled \$145 billion on February 15.

Chairman Nelson issued a set of regulations regarding the employment of "dollar-a-year men" by the Government. The Army Ordnance Department ordered ordnance chiefs in the 13 districts of the U. S. to provide engineering assistance to small manufacturers whose plants could be converted to arms production.

Army

The House passed and sent to the Senate the new \$32 billion War Appropriation Bill which provides \$23 billion for the Army and more than \$5 billion for Lend-Lease. The Senate passed a bill to authorize payment of allotments for one year.

dependents of military personnel captured or listed as missing. Voluntary enlistments in January totaled 30,000—double the highest World War I figures. The Army announced formation of the First Filipino Infantry Battalion at Camp San Luis Obispo, Calif., to provide loyal Filipinos a means of serving in the U. S. armed forces and the eventual opportunity of fighting in their homeland. The War Department reported American pilots in the Chinese Air Forces "are giving Japanese airmen their worst licking of the war. . . . knocking down more than 10 Jap planes for every loss of their own. The Army Signal Corps is seeking civilian engineers to train radio and telephone positions, in Civil Service jobs paying \$2,600 to \$3,600 annually.

Selective Service Headquarters announced new Army physical standards for inductees will permit reclassification as Class I-A of thousands of men now deferred due to teeth and eye defects. SS Director Hatcher instructed local draft boards to defer labor leaders and Government labor liaison men to permit continuance of their work in aiding war production and to defer men engaged in maintenance of essential agricultural activities. Men registered February 16 will be called for induction only after local boards have exhausted their existing lists," he said. A lottery in March will determine the order of classification and induction. Questionnaires on vocational experience will be sent to every registrant who has not yet been called for service.

The War Front

Gen. MacArthur reported continuous fighting on the Bataan Peninsula and battery attacks on the fortifications throughout the week. The Navy announced the destroyer Shaw, previously reported lost at Pearl Harbor December 7, arrived in a U. S. West coast port being repaired and within a few weeks will be in service again on the high seas. A U. S. tanker was torpedoed in the Atlantic area, while U. S. forces inflicted heavy enemy losses which included: 10 planes, one large and one small enemy transport and one 5,000 ton cargo ship sunk, and two enemy barges destroyed.

Navy Secretary Knox said the Navy, operating over three-fourths of the globe under the heaviest burden in its history, must now protect U. S. shores and coastal commerce, strategic areas vital to our defense, the American Republics, and the flow of supplies to Great Britain. It must check Japanese aggression until "we can muster our forces and send it hurtling back whence it came."

The Navy announced launching of a battleship, four destroyers and a submarine chaser. The Navy said 1,000 Naval and Marine Corps officers and enlisted men and 1,200 civilians in the Pacific war area presumably were taken prisoners of war by the Japanese after December 7. The Portland, Oregon, recruiting office topped all others in January with 114 enlistments for each 100,000 persons in its area. The nation's schools started work on a program to make 500,000 accurate scale models of United Nations and enemy warplanes for U. S. naval, military and civilian defense forces.

The Chief of Naval Operations ordered representatives of local Naval District Commandants to arrange with ship owners to do preliminary work when ships are in port loading or unloading to speed arming of American merchant vessels. The House passed and sent to the Senate the War Appropriation Bill providing nearly \$4 billion to

expand the merchant fleet. The Senate passed a bill authorizing an additional \$100,000,000 appropriation for expanded Navy manufacturing and production facilities.

Price Administrator Henderson announced three consumer forms for sugar rationing are expected to be printed and distributed by March 7. He said there will be two registrations for rationing cards, one for housewives and another for small commercial users. Petroleum Coordinator Ickes said nationwide rationing of petroleum products may be necessary if other methods fail to prevent shortages on both coasts. He announced regulations governing sales of fuel oil to all East coast consumers to keep stocks at a reasonable minimum and to prevent hoarding. The Justice Department said it is prepared to prosecute all violators of wartime industrial regulations including priorities, rationing and price control. Protection from Sabotage

President Roosevelt authorized the Secretary of War to move out of vital defense areas any persons believed inimical to the U. S. war effort—citizens and aliens alike. Attorney General Biddle said the FBI has apprehended almost 4,000 alien enemies since the outbreak of the war. Approximately one-third of these are Japanese from California, Oregon and Washington.

Woolen Thread Scraps Wanted By Red Cross

Will any one who has scraps of woolen thread left over from Red Cross knitting, or any from personal use, or any knitted woolen garments which she will donate, turn them in at once to the Red Cross office?—Yarn is scarce. We NEED yarn to fill our Junior Red Cross knitting quota of afghans.

Priorities and Allocations

The WPB froze all stocks of new mechanical refrigerators except those in the hands of retailers, in preparation for conversion of this \$280,000,000 industry and its 36,000 workers to war production. All refrigerator production will end on April 30, the Board said. It also assumed full control of the entire raw case supply, curtailed use of critical materials in manufacture of all musical instruments, and restricted use of natural gas.

pinwheels
the KARO way

You've dreamed about biscuits like these—tender pinwheels with luscious fruit and spice filling in every "curve". They look complicated, but they're really easy to make. Treat the family to a batch tonight.

1½¢ apiece

PINWHEEL BISCUITS
2 cups all-purpose flour 1/2 cup KARO (blue label)
3 teaspoons baking powder 1/2 teaspoon cinnamon
1/2 teaspoon salt 1/2 cup prunes, drained
1/2 cup shortening and chopped
1/2 cup milk
1/2 cup canned red cherries, drained and chopped

Sift flour with baking powder and salt. Cut in shortening. Add milk slowly to form a soft dough. Roll out on a lightly floured board into a rectangle about 1 1/2 inches thick. Now cream butter until softened; add KARO, cinnamon, and mix until well combined. Stir in prunes and cherries. Spread dough with this mixture; roll up as for a jelly roll. Slice into 1/2-inch pieces, and place in a greased baking pan. Bake in hot oven (425 degrees F.) 15 to 20 minutes or until browned. Makes 1½ dozen tea biscuit pinwheels.

NEWS and FACTS . . . of Statewide Interest

ARE YOU A QUIZ EXPERT?

This quiz is full of facts. Here are the questions, and we think you will be interested in the answers.

- Q: What social and economic benefits does the state derive from Kentucky's \$20,000,000 beer industry?
- A: Beer provides jobs for 15,000 Kentuckians, pays salaries and wages exceeding \$10,000,000 a year, and, since 1935, has paid the State of Kentucky over \$6,275,000 in taxes.
- Q: Is beer rightfully considered a beverage of moderation?
- A: Eminent authorities, after scientific investigation have proved that beer is a beverage of moderation.*
- Q: What is being done to weed out undesirable beer outlets?
- A: The Kentucky beer industry, through our Committee, is cooperating with law-enforcement authorities to eliminate all undesirable retail beer outlets. To date, on our recommendation, 30 retailers have lost their licenses, 8 have had their licenses suspended, and 4 have had their outlets padlocked.
- Q: Will this "clean up or close up" program be continued?
- A: It will! The Kentucky beer industry is determined that conditions in all retail beer outlets shall be as wholesome as beer itself.

TVA Enabling Act Finally Is a Law

The most hotly contested bill and most talked of piece of legislation since the Kentucky General Assembly convened in the present session became a law Saturday when Governor Ketchum signed the bill after it had been passed by both houses.

The bill permits cities to contract for electric power from the TVA. The law is to become effective 90 days after the end of this session, which is on March 3. TVA officials have estimated, according to reports, that hydro-electric power will not be available for Kentucky consumers before 1944, but the early passage of the bill will give municipalities time to acquire plants if they wish to, and to complete all necessary legal steps toward contracting for the power.

Lesson for March 1

THE PARABLES BY THE SEA

LESSON TEXT—Mark 4:26-32; Matthew 13:44-46.

Parables as a means of conveying truth reached perfection in the hands of the Master Teacher, Jesus. Taking short stories of well-known events or facts from daily life, He presented profound truth in the most simple and attractive form.

Except for the parable of the four kinds of seed which He interpreted (Matt. 13:18-23), He left it to His listeners to make their own application. This has led to some difference of opinion, but in general the parables are received as excellent and helpful portions of God's Word.

In the two passages of Scripture assigned for our lesson, we have five parables, each with a distinctive message, yet together pointing out that there is a time of growth leading to harvest and judgment, and that our gracious God has at great cost provided a way of redemption.

I. Normal Growth Is Blessed (Mark 4:26-29).

God is patient. He awaits the normal, healthy, steady growth of His seed. Man is impatient. He wants to see the seed grow and bear fruit immediately. He wants to see the seed grow and bear fruit immediately. He wants to see the seed grow and bear fruit immediately.

The same attitude enters into his care of his children. They must get ahead in school beyond their years. They must get out and make a living long years before they have learned to make a life. Why not let them mature in the orderly, God-given way?

The same is true in the work of the church. There must be immediate "tangible" results or he will not give his support. Anyone with judgment knows that spiritual life takes time to develop, and that spiritual results cannot be judged by physical or tangible standards.

Seedtime, growing time, normal ripening, then harvest—that is God's order and it is a good one.

II. Abnormal Growth Is Dangerous (Mark 4:30-32).

Normally the mustard tree is a small plant, and when it grew into a great tree something abnormal had taken place. Birds (which are denoted something unclean in Scripture) came to lodge in its branches.

Just so, Christianity was never intended to be made up of a nominal Christianity which empire in which ungodly men (the dark birds of the evil one, Matt. 13:19) should find comfortable lodgment. Unfortunately, that is just what happened to Christianity in the so-called conquest of the Roman empire at the time of Constantine. The results were disastrous. The same principle is evident today in the control of much of the world by worldly men.

III. Redemption Is Costly (Matt. 13:44-46).

While it is true that our redemption is worth more than anything else in all the world and that the Christian would gladly set aside (or would he?) everything for Christ's sake, yet that does not fulfill the thought of this parable. After all, what has a sinner (whose own righteousness is described in Scripture as "filthy rags") to sell in order to obtain redemption? And is it for sale? (See Eph. 2:8.)

Obviously we have here the Savior with His all-seeing eye and loving heart noting in fallen humanity the pearl of great price. His own Church. He then gives up all the glory He had with the Father, comes to the earth, and even becomes sin for us that He may bring us to God.

Salvation in Christ is no little thing, not something which was purchased with gold or silver, but with the precious blood of Christ. We ought to value it highly, and because we are bought with a price we ought always to glorify God (I Cor. 6:20).

IV. Judgment Is Certain (Matt. 13:47-50).

All kinds of fish were in the net, and until the cord was drawn and the net emptied they looked much alike and enjoyed much the same standing as "citizens" of the sea. But when they faced the fisherman there was a quick division, and a final judgment upon the bad ones.

It is true that in God's kingdom (as it is now manifested in "mystery" in the Church) there are many who have come in by false profession, through carelessness of pastors or church officials, etc. They go through the motions they look and act much like Christians (although even here they create questions in the minds of true followers of Christ). The day is coming, however, when they shall stand in judgment before the Christ, whom they profess to love and follow. How terrible shall be their doom!

They need not wait in fear for that day. They may now, today, make right their relationship with God.

Come To CHURCH

The pastor will preach morning and evening. A. M. subject: "THE CALL TO PRAYER"; P. M. subject: "THE CALL TO REPENTANCE".

Baptismal service Wednesday evening after the mid-week meeting, March 4th.

Church School with classes for all ages beginning with the Cradle Roll Class. Classes meet in separate rooms for the Bible study for the day; faithful officers and teachers are in charge of the school. The entire membership is earnestly invited to assist in building a school that will reach with the gospel message of life every person not now in possession of it, and that every Christian shall become an active worker in an effort to cause the work to strengthen every church member.

Training Union with a Union for every age beginning with the Story Telling Hour. The director and all helpers are very anxious that every member of the church shall help by their presence and prayers to make the Union a greater blessing to all the church, in providing better church members to serve at home and abroad.

Mid-week meeting every Wednesday evening at 7 o'clock. This is a very important meeting and should be attended by all the members and friends.

The church and pastor cordially invite every one to worship with us whenever it is possible; you will have the gospel in sermon and song.

The Student and Youth Revival conducted by the B. S. U. under the direction of J. Chester Durham and aided by Rev. A. L. (Peter) Gillespie, State Student Secretary, and Dr. W. Morris Ford, pastor of the First Baptist Church of Jackson, Tenn., was a glorious success.

Calloway Teams Are Favored to Win District Honor

The Fourth District Basketball tourney, composed of eight Calloway county teams and two Graves county teams, will get underway at the Murray High School gymnasium, Tuesday, March 3, and the finals will be played Saturday night, March 7. Sedalia was winner of this district in 1941 and was forced to turn on full steam ahead to beat a fighting Almo quint 42-36 in the final tilt of the district play last year.

For the curtain-raiser in the Fourth District affair, Concord will oppose Farmington Tuesday, March 3, at 7:30 p. m. and as luck of the drawing would have it, the Murray Tigers will meet the Almo Warriors in the second game on the same evening.

By virtue of a bye, the Faxon Coyotes and Training School Colts will meet each other in the county tourney will meet again Wednesday night, March 4, at 7:30 o'clock and in the closing game on that date Lynn Grove will try to meet the winner of the Farmington-Concord game at 8:30.

On Thursday, March 5, at 7:30 p. m. the winner of the Murray-Almo match will meet Kirksey who also went into the second round on a bye. In the night game on this date will be found Hazel vs. Sedalia who were escorted into second round play by the bye route.

For the semi-finals, Friday night, March 7, the winner of the Faxon-Training School game will meet the winner of the Lynn Grove-Farmington-Concord match at 7:30 and at 8:30 the winner of the Kirksey-Murray-Almo match will meet the winner of the Hazel-Sedalia encounter.

The final will be played Saturday night, March 7, at 8 o'clock. From all indications it is probable that the finals will find two Calloway teams matching ability.

Standouts in County Net Tourney

By RALPH WEAR

With no official County Tourney team picked last Saturday, it might be well to mention members of the various teams who played outstanding ball during the contest. Perhaps it is not the best policy to name an all-star group as it is understood thoroughly that for a certain individual to play good basketball he must receive help from his teammates. However, in no official capacity, I would like to name the following boys, who in my opinion, exhibited unusual ability to handle the ball, hit baskets, and play a good floor game:

ALMO—Beale, Phillips, Young
LYNN GROVE—Miller, Todd
KIRKSEY—Faxon
TRAINING SCHOOL—Harris
FAXON—Chaney
CONCORD—Oliver
MURRAY—Alton
HAZEL—Moore

Murray State Swamps Memphis State 70-37

As a warm-up game for the Delta State affair, Murray's thoroughbred warriors warmed up their "shootin' arms" and plugged out a 70-37 win over Memphis State at Memphis last Friday night.

Coach Mountjoy's outfit, however, played a "bliss" game with the Memphis five and romped into an early lead and held it throughout. The Murphys lapped the Tennesseans and were out in front 32-16 at halftime.

CEDAR CREST

Sorry to report the illness of "Uncle Dick" Walker with flu, also Mrs. Cora Lee McCuiston, heart trouble and high blood pressure.

"Grandma Rhoda" Brandon seems to be very slowly improving.

Mrs. Lee is suffering from head and eye trouble.

Miss Julia McCuiston visited with her brother Ervan McCuiston and wife last week-end.

Goebel Morris and Pete Self have been called by the TVA. They are in Tennessee at work.

Tip Blacklock of near Murray has finished stripping tobacco near the Crest. Tip is a real tobacco and cotton grower.

The TVA got his farm down near Brandon and he purchased a nice farm south of Murray and moved there last fall.

Crawford Mohundro bought a fine mule the past week.

B. Smith has moved to Otis Lovins' farm. I hear he came from Paducah or near there. He is employed by the TVA.

I noticed one of our old neighbors, Tony Boggs, was back around his old home last week. He moved from near Boatwright to near Murray where he bought a fine farm. Tony is a good all around farmer; also milks eight or 10 cows.

Porter Hutchins is tearing his house down. He will move it to a farm he bought recently.

Mrs. Grace Cook, widow of Maston (Cub) Cook, I learn will make her home with her parents, Mr. and Mrs. Hanley of near Kirksey.

I just learned of the illness of Mr. Lawrence, an elderly man, father of Mrs. Clabern McCuiston. He is with Mr. and Mrs. McCuiston.

Ervan McCuiston was in Murray the past week on business.

A little corrected. I stated I would be 82, not 72, in 10 more years—as I was already 72 last October—Biddy Wee.

Government to Help Keep Egg Prices Up

The Agriculture Department has announced it would extend its egg-buying operations to Kentucky and other states during the spring season of heavy production in a move to assure farmers equitable prices.

Public refrigerated warehouses will be authorized to buy eggs for the department from farmers, cooperative organizations, small dealers and storekeepers in lots of not less than ten cases.

Warriors' Second Team Wins to Make a Double Victory

Almo High School cagers, under the mentorship of Raymond Story, are now basking in the spotlight of notoriety as winners of the Calloway County Basketball tourney. The Warriors from Almo played in the 1941 finals but were beaten 41-30 by the Hazel Lions.

The Almo quint are perched on the top rung for the first time in the working aggregation were decidedly the club for first honors. They defeated Concord 29-25, nosed out Murray High 21-19 and then went on to lick a game Lynn Grove team 27-23 to gain the crown and each of the three tilts were hard fought affairs.

The entire Almo, quint played excellent ball but the team was sparked by Phillips who scored 33 points during tourney play and was ably assisted by Beale and Young who excelled as floormen.

And to make the victory extra sweet, Almo's second team, not to be outdone by their varsity brethren, succeeded in polishing Murray's seconds 22-10, wallowed the Kirksey B's 26-10 and then led by the inspired play of C. Emerson who scored 16 points, turned back Concord's seconds by a score of 32-24 in the finals.

The tourney, which drew record breaking crowds at each session, opened Wednesday night, February 18, with Lynn Grove winning from Kirksey by a score of 22-19 in a well-played tilt. The second game of the evening found a valiant band of Training School Colts losing a heart-breaker to Faxon by a score of 21-19. The Colts led most of the way only to lose in the closing minutes of the final quarter.

Thursday night, fans really got their money's worth as they watched two fine clubs, Almo and Concord, battle to a thrilling finish. Almo pulled the fat out of the fire with minutes to go, to win by a score of 29-25. The nightcap for the evening play pitted Murray with Hazel. The Tigers were leading only by a slight margin at the half but managed to pull away in the final quarters to win by a score of 28-17 to end the first round of the tourney.

In the first game Friday night, Lynn Grove's Wildcats got into a difficult scrap with Faxon's Coyotes and the spectators were reminded of one so-called "Red" Culp when Chaney, for Faxon, cut loose with a fine exhibition of ball handling and goal shooting.

Murray Breds Defeat Strong Delta Five 46-43

That old Thoroughbred finish in the final minute of play which saw three needed points rolled up, gave Murray State a narrow 46-43 win over the Delta State Teachers' five at Cleveland, Miss., Saturday night. A charity toss by Fuls and a slap-in by Grimmer accounted for the Kentuckians' margin of victory. The score was 46-43 with 60 seconds left in the game.

The game, which had been predicted as the toughest remaining on Mountjoy's card, was close from start to finish, with the lead changing as fast as Murray weather. A last-minute rally in the first half put the Breds in front 27-22 at intermission. Delta came back strong and jumped into a 29-28 lead, and from there on out it was an airtight battle.

The lineups:
Murray 46 Pos. Delta 43
Fuls 13 F. Killeen 9
Grimmer 9 F. Bullard 11
Salmons 9 C. Gilliam 4
Culp 8 G. Martin 10
Ellison 2 G. Smith 7
Subs: Murray—Hurley, Johnson
Delta—Graham, Hood 1, Williams 1, Varnada.

Murray Boxers To Meet Champs at Lafayette, La.

Coach Jim Moore's boxing aggregation of Murray State, undefeated in its 3-year history of intercollegiate boxing, will risk its spotless state on March 2 when it faces the National intercollegiate boxing champions of Southwestern Louisiana at Lafayette, La.

Murray was originally scheduled to box Catholic University here Monday night, February 23, but the Washington, D. C. team has canceled the match. Changes in graduation plans necessitated the cancellation, according to officials of Catholic University.

Another change in the schedule was announced by Coach Moore. The return match with Arkansas Tech at Russellville, Ark., will be held on March 4 instead of on March 2 as previously announced.

Boxing at Murray State College has created a great interest in this part of the state and each bout has brought added enthusiasm to the Thoroughbred battlers. It is quite apparent, however, that the Southwestern Louisiana outfit should, at least, test the Murphys to the limit.

Purdue would furnish the test bout of the card, however, they apparently were just another team to the Thoroughbred battlers. It is quite apparent, however, that the Southwestern Louisiana outfit should, at least, test the Murphys to the limit.

The corner of that phrase could have had but one thing in mind — the motion picture theatre, which provides entertainment at the cost of a few pennies. If you haven't been going regularly you've been denying yourself something you need — relaxation and fun.
